Ales on Tap

Our current hand-crafted Ales are brewed on-premise, in our full production brewery.

PREMIUM GOLDEN ALE

This lightly flavored ale has German and Czech hops, which create the subtle characteristics of a pilsner. 5.9 % A/V

WILD CLOVER HONEY ALE

Our Signature Ale is crafted with the addition Wild Clover honey, which is added during the boiling process. The sweetness of the honey is generally removed during the fermentation process. 6.1 % A/V

AMBER ALE

The Amber Ale is crafted using a higher percentage of caramel specialty malts, which provide the deep reddish-amber hue and a nutty flavor profile. 5.9 % A/V

TWO TIMING IPA

India Pale Ale is a hoppy golden ale typically having citrus and floral aromas. The hop flavor & bitterness is inevitably quite high. 8.0 % A/V

HEFEWEIZEN

This is 'the classic' German Ale ferments with a special yeast creating a malt character that is light and crisp and a dominating flavor profile of clove and banana. 6.0 % A/V

POMPOUS ALE

This classic dark, yet sweet ale, is high in gravity with a malty sweet finish. If you drink stouts or porter or any other dark beer, Pompous Ale is the one for you! 7.2 % A/V

Flagship Ales drawn through our Hand Pump

The 'Beer Engine' as its known in England produces a clean, smooth, less carbonated & slightly warmer ale with a creamy finish.

Old Goats Oatmeal Stout

Oats round out the flavor in this rich dark stout. And with the generous helping of roasted specialty malts, it creates a rich, smooth & creamy finish. 6.1 % A/V

California Pale Ale

Craft-brewed pale ales tend to be lighter in color and hoppier than their English counterparts. The bitter character is achieved by adding hops during the boil and at the end of fermentation. 6.0 % A/V
